WON AT SAVANNAH

MARYVILLE BOYS GET UNANIMOUS VERDICT IN DEBATE.

CAPTURED THE AUDIENCE

Victory Was Clean Cut and Decisive—Savannah "Did Herself Proud" in Entertaining Visitors.

Before an audience that crowded the Presbyterian church to its doors, the Maryville high school was awarded the decision over the Savannah high school in the debate at Savannah Friday night, the vote of the judges being unanimous.

The subject, "Resolved, that the initiative and referendum is promotive of sound legislation," was affirmed by the Maryville representatives, and it was the unanimous opinion of the judges that the Maryville boys excelled both in their speeches and delivery.

The program of the evening was opened by Superintendent Nardin of the Savannah schools, who gave a short, hearty speech of welcome. He then introduced Mr. Merrill Ods of St. Joseph, a Maryville high school graduate, who presided over the meeting.

Mr. Ods opened the debate by presenting Mr. Ralph Farmer of Maryville, the first speaker of the evening for the affirmative.

The next speaker was Mr. Frank Carr of Savannah, leader of the negative side.

Mr. Horace Gibson and Mr. Ova Goff were the other speakers representing the Maryville high school, and Mr. Todd McDonald and Mr. Harold Stewart the other speakers for the Savannah school.

The Democrat-Forum received its report of the debate by phone message from Savannah Saturday morning. Our informant said it was only fair to say that Horace Gibson of Maryville made the winning speech. He delivered it with so much fire and eloquence that the audience seemed breathless until he had finished, and he was applauded to the echo. This is said in no disparagement of the other Maryville speakers, for they did their part well in winning the victory.

Mr. Farmer's rebuttal was splendid, and there was nothing else to be said when he had concluded.

The judges were President Thompson of Tarkio college, Principal Frank Touton of St. Joseph Central high school and Superintendent Corbin of the Chillicothe schools. Mr. Shepherd Leffler of Maryville was timekeeper.

After the debate Miss Ethel McFadden of Savannah invited the entire Maryville delegation and the senior and junior classes of the Savannah schools to her home and entertained them delightfully with games and a program of music.

Saturday morning the Maryville and Savannah high schools assembled in the high school auditorium and listened to some good short talks from Miss Calla Varner, Mr. Leffler, Mr. Nardin, Miss Varner speaking more especially of the fine treatment the Maryville visitors had received from the Savannah people.

Nearly all of the Maryville delegation went to St. Joseph Saturday forenoon to spend the day or to visit friends over Sunday. Those who returned home at noon Saturday are proudly telling the good news of how the Maryville boys won.

"But," they add, "you ought to see the fine spirit in which the Savannah people accepted their defeat. They are the best losers you ever saw. How they entertained us! It made us sorry that the judges' decision was unanimous. Had the judges conferred it is almost sure they would have agreed to give them one vote, but the rules did not permit a conference, and their votes were given in separately, which showed how perfectly they agreed. There was not one bit of difference in the treatment the Savannah people gave us after the debate to what it was before the debate. They are certainly royal people. They are coming up here for the debate next year, and we must begin to get ready for them right now."

Mr. Ods enjoyed his part in the event and was proud of the Maryville boys. In his opinion Horace Gibson is a "born orator."

Mr. Shepherd Leffler, who drilled the boys for the debate, is entitled to full credit for the victory. He put the boys through a crucial test in the last two weeks, and if they had not had good timber in them they would not have stood it.

SMALLEST PER CAPITA EXPENSE

Northwest Normal Making Largest Returns to State in Proportion to Money Appropriated.

In the April number of the Missouri School Journal, an article written by Supt. J. Will Pierce of Washington, Mo., shows that the Maryville Normal is returning to the state more for the money invested than any of the other Normal schools in this state. Springfield normal is next.

Here are the figures that Mr. Pierce used to show what average the per capita cost of all of the five state normals, including in this estimate the interest on the money invested in the buildings and grounds:

Kirksville, average number attending for four years was 645; Warrensburg, 740; Cape Girardeau, 420; Springfield, 450; Maryville, 235. The average annual cost for four years is: Kirksville, \$61,939; Warrensburg, \$69,114; Cape Girardeau, \$56,671; Springfield, \$42,415; Maryville, \$32,152. The interest on investment in buildings and grounds per year at 8 per cent is: Kirksville, Warrensburg and Cape Girardeau, \$64,000 each; Springfield, \$24,000; Maryville, \$3,200.

This makes the average annual per capita cost for four years as follows: Kirksville, \$195; Warrensburg, \$179; Cape Girardeau, \$286; Springfield, \$146; Maryville, \$149.

Announcement.
I wish to announce that I will be a
candidate for county treasurer on the
Democratic ticket, subject to the pri-
mary election in August.
SAMUEL H. WILLIAMS.

YOU SHOULD CONTRIBUTE.

Since the campaign has proceeded
to the stage where Champ Clark can
win the nomination, The Democrat-
Forum suggests that popular sub-
scriptions be taken for the Clark
campaign fund. To carry on a cam-
paign it takes money—especially if
the campaign be nation-wide in its
scope. Clark is a poor man. So are
most of those behind his campaign.
Naturally the campaign fund is a lim-
ited one, while the expenses of the
campaign are big.

Let every Democrat give a dollar or
more to the effort being made to nom-
inate and elect a Missourian pres-
ident. A dollar or more could be
given in no way that will bring bigger
returns in the form of genuine hap-
piness, than by contributing toward
backing a Missourian who can and
will "show" the nation that Missouri
produces presidential material, along
with her other great and unlimited
products.

The subscriptions are needed now
worse than they will be later. The
special fights are those yet to be
fought. Follow up the Illinois victory
with a few more in succession and
Clark is certain to win.

The Democrat-Forum will receive
subscriptions for the Clark campaign
fund and forward them to the Clark
campaign headquarters in St. Louis,
the Governor Lou V. Stephens being
treasurer of the fund. A list of the
contributors will also be published in
this paper daily. This list will be
sent to the St. Louis Republic and
they will print the names also.

Now is the time to send in your
contribution. Make out your checks
payable to The Democrat-Forum, who
will send them in to the St. Louis Re-
public, who will turn all money over
to Treasurer Stephens.

The Democrat-Forum will start the
list by giving \$10 to the Clark cam-
paign fund.

SCRAMBLE FOR
GRANT'S PLACE

Gen. Funston Believed to be Most
Likely Successor.

KANSAN IN LINE FOR PROMOTION

War Department Gossip Mentions Sev-
eral Other Possible Candidates
for Coveted Honor—Anthony's
Influence Being Used.

Cheyenne, Wyo., April 13.—A pri-
vate dispatch said to have been sent
by an official of the war department at
Washington was received at Fort D.
A. Russell, declaring that Frederick
Funston, senior brigadier general,
would succeed the late Maj. Gen. Fred-
erick D. Grant.

It was said that Brig. Gen. Clarence
R. Edwards, chief of the insular bu-
reau, would succeed Funston as brig-
adier general of the line.

Wood to Recommend Him.

Washington, April 13.—From the
war department it was learned that
Brig. Gen. Frederick Funston prob-
ably will be appointed successor to
the late Maj. Gen. Grant as com-
mander of the department of the
East. Gen. Funston is the ranking
brigadier general, and it is said that
Gen. Wood, chief of staff, will recom-
mend him within a day or two to
Secretary of War Stimson for the
place. It is customary for the sec-
retary of war to take the suggestion of
the chief of staff to the president as
made.

D. R. Anthony, representative from
Kansas, is chairman of the house mil-
itary affairs committee, and is bending
every effort to have Funston moved up
according to his ranking position. An-
thony stands in an enviable position
to have his recommendation favorably
considered. Not only is Funston en-
titled to the place according to rank,
but it must be remembered that An-
thony was much disappointed in the
refusal of the president to name
Judge W. C. Hook to succeed the late
Justice Harlan to the supreme bench.
It is not considered probable that
Taft will again refuse Anthony's re-
quest after having turned down Judge
Hook.

Edwards Stands High.

At any rate the gossip of the war
department is that Funston will get
the place. He is now in command
of the department of Luzon, which in-
cludes the Philippines.

Brig. Gen. Edwards, however, stands
eighth in point of rank among the
brigadier generals, of whom there are
27 on the active list. Brig. Gens.
Crozier, Bliss, Hall, Mills, Sharpe and
Allen rank him, in the order named,
and if the successors were to be
automatic Gen. Crozier would succeed
Gen. Funston as the senior general.
Gen. Edwards is a close personal
friend of President Taft.

CABINET TO LOSE HITCHCOCK?

Postmaster General to Resign and
Enter Business—Said He Was
Through With Politics.

Washington, April 13.—Postmaster
General Hitchcock will resign, as a
member of President Taft's cabinet
before July 1. He will enter business
in New York city. It is understood, he
will receive a salary of \$25,000 a year.
Mr. Hitchcock announced recently
that he was through with politics. His
announcement was a notice served on
those to whom he had made pledges,
not fulfilled, that he was unable to
fulfill them.

The postmaster general, along to his
course despite repeated efforts of his
friends to persuade him to try further.
It was when the breach between the
postmaster general and the president's
present political advisers was the
widest, just a few weeks ago, that
some of the former lieutenants of Mr.
Hitchcock began to desert him.

Washington, April 13.—Postmaster
General Hitchcock authorized a formal
statement denying emphatically "that
he had any intention of resigning as
a member of President Taft's cabinet."

Big Fire at Omaha.

Omaha, April 13.—Omaha is fighting
the worst fire for years in the retail
district. Flames were discovered af-
ter midnight in a six-story building
occupied by ten concerns, including a
department store. The building cov-
ers a fourth of a block. The fire was
beyond the control of the firemen at
1:30 o'clock. That the loss will be
several hundred thousand dollars was
indicated at 2 o'clock. The building
itself was valued at \$100,000.

Shopmen Back to Work.

Sedalia, Mo., April 13.—A large num-
ber of Missouri Pacific machinists,
who were laid off when the force was
reduced several months ago and went
to work at other points, have been
notified to return to work in the Se-
dalia shops at once. Since April 1
nearly 500 additional men have been
put to work in the Missouri Pacific
and Missouri, Kansas & Texas shops
here.

CHICAGO CARPENTERS AT WORK
Builders' Association Signs New Scale
Granting Wage Increase and
Strike Ends.

Chicago, April 13.—Nine thousand
carpenters, who have been on strike,
returned to work with the strike for
a wage increase from 60 cents to 65
cents an hour won. The Carpenters'
and Builders' association signed the
new scale and building operations
were resumed in Chicago at once.

Nearly 7,000 men returned to work
last week, when independent contrac-
tors signed the union scale. The de-
mand of the carpenters that contrac-
tors use only union made materials
was withdrawn. Judge John R. New-
comer of the municipal court was in-
strumental in bringing about the set-
tlement.

Escaped Gallows by Suicide.

poison in his cell and died in spite of
the efforts of several doctors. Where
he got the drug is not known.

LIFE VERSUS DEATH BREAD

Physician Claims Much for Prepara-
tion That He Asserts Has Re-
newed His Life.

The physician had once been a dys-
peptic, sour and morose; but his
color was now ruddy and clear, his
spirits light, and his health excellent.
"Death bread," he said, "laid me
low. Death bread kept me a dyspep-
tic for ten long, sad years. And life
bread has made me my own buoyant,
healthy, happy self again."
"What do I mean by death bread?
I mean ordinary bread. Why do I call
it death bread? Because it is alive
with putrefactive germs—because, by
more than one authority, the yeast
cells in it are said to be identical
with the diseased cells of pus—and,
therefore, are a poison."
"Yeast, in fact, is as unhealthy as
its sickly smell and musty, slimy con-
sistency would lead you to believe.
It is a mass of living germs—and
along with these are mingled putre-
factive germs. Yeast is a very harm-
ful thing. It makes bread a very
harmful thing. All bread made with
yeast is death bread."

"Life bread—what I eat. I
make it myself. I take wheat of the
finest quality, unground, and I roast
it over a hot fire in a thick iron sauce-
pan. The grains, an inch deep in
the pan, are stirred continually. They
pop, like popcorn, and, when all have
pepped—it is a matter of about ten
minutes—my life bread is done."
"Each grain of this life bread is a
loaf, a miniature, delicious loaf,
brown and crisp, that falls to powder
on being bitten. Life bread must be
kept in air-tight tins. It is the health-
iest, the most nourishing, and the
best flavored bread in existence. But
it must be confessed that the loaves
are rather small."

Flying Powers of Birds.

The rate at which some birds can
migrate under favorable conditions is
extraordinary, and as one listens to
their plaintive cries coming from the
darkness overhead it is difficult to
realize that in a few hours these same
birds may be within the arctic circle
and a little later may be even cross-
ing the pole itself. . . . Less is
known of the actual dates of the de-
parture of the migratory birds in au-
tumn than of those of their arrival
earlier in the year, and this for ob-
vious reasons. The way in which our
most charming songsters silently
skulk out of the country in the autumn
is very different from that in which
they make their triumphal entry in
the spring when every wood and copse
resounds with their melodies.—Wind-

Home Health Club

By DR. DAVID H. REEDER,
LaPorte, Ind.

Whooping cough—This affliction, peculiar to children as a rule, is so called because of a peculiar "whoop" in the paroxysms of the second stage of the disease. It is contagious and usually occurs epidemically and is self-limited. One attack of it generally immunizes the subject from having it again. It has three distinct stages, if proper treatment does not conquer it in the first stage. The patient may show evidence of the disease in forty-eight hours, or it may not become palpable for eight weeks after exposure.

Whooping cough is a much more dangerous disease than is generally supposed and it is liable to serious complications under improper treatment that bring about other afflictions very distressing and at times ruinous to a child's general health, or the wreck of some special function. Its first stage is more catarrhal than otherwise, the onset being caused by

a common cold, and lasts from one to five weeks, many of the symptoms being those of hay fever and acute catarrh, such as sneezing, watery eyes, headaches, slight fevers, or chilliness, indisposition and frequent coughing.

Treatment should be applied in the first stage, and if carefully and sensibly given, will generally ward off the second stage. The patient should be warmly clothed, seasonably, and especially the feet, should be kept warm and dry. After a diluted acetic acid bath and a good rubbing with olive oil, or almond oil, put the child to bed and apply dry heat to the feet. Give a cup of hot ginger tea, with a half grain of cayenne pepper added. To relieve the paroxysms of coughing, give from the twelve tissue elements (obtained in a homeopathic drug store) Kali Mur in tablet form of about the sixth trituration, two to four tablets, according to the age of the patient, six times daily. Generally this will suffice to check the disease.

The second stage—if it has not been turned aside—is extremely distressing to the child and alarming to inexperienced attendants. More severe paroxysms are preceded by a peculiar sensation in the throat and chest. Air expelled from the lungs by several rapid and violent expirations, followed by a rush of air to the lungs, producing the peculiar "whoop" from which the disease takes its name. This is weakening, the veins of the neck enlarge; the heart throbs energetically; the eyeballs protrude; the face becomes purple; the forehead yields profuse perspiration, and it seems as if the child would suffocate. However, this lasts only about three minutes and suddenly disappears. This is followed by expectorations of mucus and sometimes by vomiting, and often by evacuations of bladder and bowels.

This stage of the disease usually lasts about ten days, if it is successfully handled. The same treatment as to the giving of Kali Mur, as in the first stage, is about all that can be done, though close care to do everything to keep the child comfortable should be given to shorten the duration of the disease; protection from draughts and dampness and the administration of plain, nutritious diet.

The third stage is only that of convalescence, but it is a critical period. The child wishes to be active, to overeat, and to seek exposure. All these should be strenuously prevented, not only to promote normal health rapidly, but to avoid complications that

are insistently seeking to attack the patient, in the weakened state that whooping cough superinduces.

With care and prompt attention in the first stage, whooping cough passes away with less danger than acute catarrh, and handled with this care and attention, is often quite simple and comparatively harmless. But, as before mentioned, it is an extremely dangerous disease and carries off more children in proportion to its prevalence than almost any other disorder. Often it is very stubborn and is something that should be especially guarded against and particularly cared for and fought against, upon its first appearance.

Paste This in the School Books.

Every child that goes to school—or anywhere else—should cut out these rules and paste them in every school book. Parents who would save their children's health will see that they do it:

Take a clean handkerchief every morning and use it if needed.

Never pick your nose and rub it on your sleeve or hand. Use your handkerchief.

Never turn the leaves of a book with wet fingers. You can learn a better way. Your teacher or parents will show you.

To wet pencils with your tongue or lips is dangerous to you and hardens the pencil. If the pencil is not soft enough, get another.

To put money in your mouth is awful, especially small money such as children are liable to have. You cannot know whose dirty mouth or hands it has been in. It probably has germs of disease on it, so small that they can only be seen with the strongest microscope.

To put pins in your mouth is dangerous in many ways. Nothing should go in your mouth except food, and drink, and your toothbrush.

You risk your life when you swap chewing gum, candy, whistles, bea-blowers, etc., or bite an apple that has been bitten by another. Be entirely exclusive about such things. It is far nicer as well as safer.

Wash or peel any whole fruit that you are to eat—except at the table. There your mother has seen to that.

It is very, very bad to cough or sneeze in another's face. Turn your face aside and hold your handkerchief to your mouth and nose.

Wash your face and hands before each meal and keep your finger nails clean.

Do not kiss anyone on the mouth or allow it from others.

When you have cut or bruised yourself, tell your parents or teacher.

Be always as cleanly as possible about your person, everywhere you are, at home, school, or abroad.

These rules will help to make the girls sweet, lovable and wholesome and the boys strong, vigorous and manly. The observance of these rules will be good for you and your companions.

These rules are written by one who wishes you well and who knows.

All readers of this publication are at liberty to write for information pertaining to the subject of health at any time. Address all communications to the Home Health Club, La Porte, Ind., U. S. A., with name and address in full and at least four cents in postage.

FREEDOM LASTED TWO YEARS

CANADIAN EX-BANKER ARRESTED IN CHICAGO.

William B. Nesbitt Said to Have Made \$250,000 From Ruin of Toronto Bank.

Chicago, April 13.—William Beattie Nesbitt, known in Chicago as George Coleman, was formally rearrested here after being taken in custody late at night charged with the wrecking of the Farmers' bank of Toronto, Canada, from the ruin of which he is said to have made \$250,000. Nesbitt is a former member of the Canadian parliament and was highly respected during a long career in the Canadian capital. Complaint charging him with being a fugitive from justice, was made before the United States commissioner by the British consul, Horace Nugent.

Nesbitt has undergone a remarkable change in his personal appearance in two years that he has been a fugitive. He has a long flowing beard, whereas in Toronto he was smooth shaven. His physical appearance has changed greatly.

The police conducted a search of "Coleman's" luxurious apartments in an effort to find some trace of the \$250,000. They believe he has more than \$100,000 in cash hidden somewhere in this country.

The prisoner insists his name is Coleman and that he knows nothing of the wrecked bank or the alleged theft of a fortune. He posed among a circle of acquaintances here as a retired financier.

U. S. CONSUL SNEERED AT

Mexican Revolutionist Will Not Recognize Representative.

RESENTS UNDUE INTERFERENCE

Orozco Says Marion Letcher Does Not Represent a Nation—Seized Official Correspondence Addressed to State Department.

Chihuahua, Mex., April 13.—The United States consul, Marion Letcher, stationed here, is not the representative of a nation, as far as Gen. Pasqual Orozco, commander in chief of the rebel army, is concerned. Orozco made this statement in an interview and declared that inasmuch as the United States government does not recognize the belligerency of the rebels, the latter cannot recognize him in his official capacity. And, anyway, he adds, he does not like the tone and language of certain communications from Letcher.

"Mr. Letcher is merely an American citizen and entitled only to the consideration we grant every foreigner," he said.

A series of incidents led to the climax. Since the revolution began the consul has been compelled, in the absence of other authority in Chihuahua, to take up various matters with Orozco. The latter fretted under the fact that the consul did not address him as a regularly constituted authority.

Seized Consul's Mail. Less than a week ago a rebel band went through the Mexican Central train bound from Chihuahua to Juarez and seized letters and documents carried by passengers. Among the matter was Consul Letcher's official correspondence addressed to the state department at Washington.

Letcher protested to Orozco. There were several exchanges, until finally the liberal leader informed the consul that the letters had been seized because either they were stamped with American stamps, or not stamped at all. Orozco declared that the fact that the letters were not entrusted to the mails as conducted by the rebels was an insult to them, not to mention the fact that by using messengers instead of the mails the rebel government is deprived of legitimate revenue.

His letter to Letcher indicates his resentment against what he considers undue interference by Americans, including the consuls, in the affairs of the rebellion.

American Engineer Slain. Moberly, Mo., April 13.—Zach Farmer, a resident of Moberly, was killed by rebels at Iraquata, Mexico, according to a telegram received here by his sister, Mrs. W. J. Slusing.

U., the State Federation of Clubs, the State Suffrage association, the Women's Kansas club, the W. R. C. and Ladies of the G. A. R., together with the deans, matrons and other heads of the women's departments in the educational institutions of the state.

SPAIN WANTS AMERICAN MONEY

King Adopts Measures to Divert Part of Tourist Travel to Barcelona and Madrid.

Madrid, April 13.—Influential Spaniards, with no less a person than King Alfonso himself at their head, are engaged in a movement to attract American tourists to view not only the beauties of the Alhambra but the modern improvements of Barcelona and Madrid. Tired of seeing the great stream of travel directed to France, Switzerland, Italy and Germany, they are adopting measures to make the sojourn of the visitor in Spain as agreeable as possible.

COLLEGE TEACHES ETIQUETTE

KANSAS "AGGIES" LEARNING TO CARVE AND SERVE.

Young Men at Manhattan Are Taught to be Graceful Hosts—Novel Course is Popular.

Manhattan, Kan., April 13.—A table etiquette course for men has found a permanent place in the curriculum of the Kansas agricultural college. Tried out as an experiment it has proved one of the most popular and helpful courses in the whole school. One hundred young men, seniors are learning to be graceful hosts; to carve and serve dainty meals without getting stage fright.

As a departure from the staid teachings of colleges, the etiquette course in Kansas attracted much attention last year. It wasn't generally known what the course proposed to do.

But visitors who saw the class in action were convinced that there were no frills about it. The meals were very daintily served, to be sure, and the service strictly correct, but the food was simple and wholesome and not beyond the means of any family.

Junior girls in the school of domestic science cook and serve the meals. Luncheons and dinners, formal and informal, make up the five noon meals every week. Four persons sit at each table. One—a woman instructor—always is hostess. The three young men take turns at playing host. They must carve and serve when necessary. The instructor teaches by example; whatever she does is right. Verbal instructions are given only when asked.

A little book, "Table Etiquette and Service," issued by the department of domestic science is the text used in the course.

EVIDENCE SHRUNK UNDER OATH

Topeka Preacher Who Told of "Forty" Joints Could Recall But One on Witness Stand.

Topeka, April 13.—Many of the things the Rev. Robert Norris had in mind when he told the state temperance union of 40 Topeka joints escaped him when he was invited to tell the federal grand jury of his liquor crusades. Norris recalled only one "joint" where he had bought liquor.

It is said Norris was confronted with a speech made last fall and by newspaper interviews in which he said 40 "joints" were operating wide open in Topeka and that he had visited and bought liquor in all of them.

With the assistance of evidence of direct sales, the federal officers usually succeed in convincing the joint-keeper that he should buy a stamp, but the Rev. Mr. Norris was unable to give this evidence when it came down to facts.

DAWSON MAY OUST DOEGE

Attorney General Orders Mayor to Drop Ten Patrolmen.

INSISTS ON LAW ENFORCEMENT

Now Has Sufficient Evidence to Warrant Drastic Measures in Leavenworth—Joins Running With Help of Police.

Leavenworth, Kan., April 13.—Attorney General John Dawson notified Mayor Albert Doege that he would expect him to oust at least ten of the patrolmen now employed by the city. As an alternative the supreme court will be applied to for warrants which will oust not only the policemen, but the mayor and Chief of Police J. T. Taylor as well.

"I have grown thoroughly tired of the manner in which the laws are not being enforced here," said the attorney general, "and I can assure you that something is to be done. If the mayor demurs to carrying out my instructions there's nothing for me to do but apply to the state supreme court, and if I do that something will happen."

Chief Talked Back. Previously when Dawson requested of Chief Taylor that some of the police force members be "excused from further duty," he was told to "mind his own business, and the chief would mind his." At the time the Topeka official made no comment on the thrust, but now he is said to be in possession of sufficient evidence to warrant drastic measures in his crusade.

Dawson and his assistant, Judge Frank Lindsay, have been in Leavenworth for several weeks. In that time comparatively few alleged joints have been raided, but the officials are said to have secured some evidence which will be used opportunistically. Mr. Dawson said that the present system of fining women would have to cease, as it is a direct violation of the law. For some time the police have been accustomed to arresting women and releasing them upon payment of from \$5 to \$25.

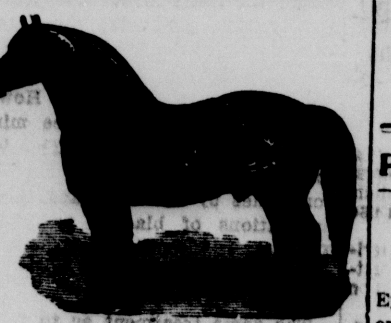

PERUNA SAVED MY LIFE.

"I Recommend It Wherever I Am."

Mrs. John M. Stabler, bottle of Peruna and commenced taking it. I found I was getting some better, but thought I was not doing as well as I might. So I wrote The Peruna Medical Department, to see what they thought about me. They gave me special directions and medical advice. To our astonishment I improved and am to-day a well woman and weigh as much as I ever did in my life.

"I tell my friends that Peruna saved my life. I recommend it wherever I am, and when any of our folks are sick, I give them Peruna with success."

WON AT SAVANNAH

MARYVILLE BOYS GET UNANIMOUS VERDICT IN DEBATE.

CAPTURED THE AUDIENCE

Victory Was Clean Cut and Decisive—Savannah "Did Herself Proud" in Entertaining Visitors.

Before an audience that crowded the Presbyterian church to its doors, the Maryville high school was awarded the decision over the Savannah high school in the debate at Savannah Friday night, the vote of the judges being unanimous.

The subject, "Resolved, that the initiative and referendum is promotive of sound legislation," was affirmed by the Maryville representatives, and it was the unanimous opinion of the judges that the Maryville boys excelled both in their speeches and delivery.

The program of the evening was opened by Superintendent Nardin of the Savannah schools, who gave a short, hearty speech of welcome. He then introduced Mr. Merrill Otis of St. Joseph, a Maryville high school graduate, who presided over the meeting.

Mr. Otis opened the debate by presenting Mr. Ralph Farmer of Maryville, the first speaker of the evening for the affirmative.

The next speaker was Mr. Frank Carr of Savannah, leader of the negative side.

Mr. Horace Gibson and Mr. Ova Goff were the other speakers representing the Maryville high school, and Mr. Todd McDonald and Mr. Harold Stewart the other speakers for the Savannah school.

The Democrat-Forum received its report of the debate by phone message from Savannah Saturday morning. Our informant said it was only fair to say that Horace Gibson of Maryville made the winning speech. He delivered it with so much fire and eloquence that the audience seemed breathless until he had finished, and he was applauded to the echo. This is said in no disparagement of the other Maryville speakers, for they did their part well in winning the victory.

Mr. Farmer's rebuttal was splendid, and there was nothing else to be said when he had concluded.

The judges were President Thompson of Tarkio college, Principal Frank Tooton of St. Joseph Central high school and Superintendent Corbin of the Chillicothe schools. Mr. Shepherd Leffler of Maryville was timekeeper. After the debate Miss Ethel McFadden of Savannah invited the entire Maryville delegation and the senior and junior classes of the Savannah schools to her home and entertained them delightfully with games and a program of music.

Saturday morning the Maryville and Savannah high schools assembled in the high school auditorium and listened to some good short talks from Miss Calla Varner, Mr. Leffler, Mr. Nardin, Miss Varner speaking more especially of the fine treatment the Maryville visitors had received from the Savannah people.

Nearly all of the Maryville delegation went to St. Joseph Saturday forenoon to spend the day or to visit friends over Sunday. Those who returned home at noon Saturday are proudly telling the good news of how the Maryville boys won.

"But," they add, "you ought to see the fine spirit in which the Savannah people accepted their defeat. They are the best losers you ever saw. How they entertained us! It made us sorry that the judges' decision was unanimous. The Savannah boys did well, and had the judges conferred it is almost sure they would have agreed to give them one vote, but the rules did not permit a conference, and their votes were given in separately, which showed how perfectly they agreed. There was not one bit of difference in the treatment the Savannah people gave us after the debate to what it was before the debate. They are certainly royal people. They are coming up here for the debate next year, and we must begin to get ready for them right now."

Mr. Otis enjoyed his part in the event and was proud of the Maryville boys. In his opinion Horace Gibson is a "born orator."

Mr. Shepherd Leffler who drilled the boys for the debate, is entitled to full credit for the victory. He put the boys through a crucial test in the last two weeks, and if they had not had good timber in them they would not have stood it.

SMALLEST PER CAPITA EXPENSE

Northwest Normal Making Largest Returns to State in Proportion to Money Appropriated.

In the April number of the Missouri School Journal, an article written by Supt. J. Will Pierce of Washington, Mo., shows that the Maryville Normal is returning to the state more for the money invested than any of the other Normal schools in this state. Springfield normal is next.

Here are the figures that Mr. Pierce used to show what average the per capita cost of all of the five state normals, including in this estimate the interest on the money invested in the buildings and grounds:

Kirksville, average number attending for four years was 645; Warrensburg, 749; Cape Girardeau, 429; Springfield, 450; Maryville, 235. The average annual cost for four years is: Kirksville, \$61,929; Warrensburg, \$69,114; Cape Girardeau, \$56,671; Springfield, \$42,416; Maryville, \$32,152. The interest on investment in buildings and grounds per year at 8 per cent is: Kirksville, Warrensburg and Cape Girardeau, \$64,000 each; Springfield, \$24,000; Maryville, \$3,200.

This makes the average annual per capita cost for four years as follows: Kirksville, \$195; Warrensburg, \$179; Cape Girardeau, \$286; Springfield, \$146; Maryville, \$143.

Announcement.

I wish to announce that I will be a candidate for county treasurer on the Democratic ticket, subject to the primary election in August.

SAMUEL H. WILLIAMS.

YOU SHOULD CONTRIBUTE.

Since the campaign has proceeded to the stage where Champ Clark can win the nomination, The Democrat-Forum suggests that popular subscriptions be taken for the Clark campaign fund. To carry on a campaign it takes money—especially if the campaign be nation-wide in its scope. Clark is a poor man. So are most of those behind his campaign. Naturally the campaign fund is a limited one, while the expenses of the campaign are big.

Let every Democrat give a dollar or more to the effort being made to nominate and elect a Missourian president. A dollar or more could be given in no way that will bring bigger returns in the form of genuine happiness, than by contributing toward backing a Missourian who can and will "show" the nation that Missouri produces presidential material, along with her other great and unlimited products.

The subscriptions are needed now worse than they will be later. The crucial fights are those yet to be fought. Follow up the Illinois victory with a few more in succession and Clark is certain to win.

The Democrat-Forum will receive subscriptions for the Clark campaign fund and forward them to the Clark campaign headquarters in St. Louis, where Governor Lon V. Stephens being treasurer of the fund. A list of the contributors will also be published in this paper daily. This list will be sent to the St. Louis Republic and they will print the names also.

Now is the time to send in your contribution. Make out your checks payable to The Democrat-Forum, who will send them in to the St. Louis Republic, who will turn all money over to Treasurer Stephens.

The Democrat-Forum will start the list by giving \$10 to the Clark campaign fund.

Several vocal solos were sung by Miss Martha Alden and Miss Eva Reece, with accompaniment by Miss Nina Reece. These musicians on the program are among Elmo's best.

The ninth grade presented a one-act comedy entitled "A Dress Rehearsal" in good style, and the tenth grade gave beautiful statue poses from Greek mythology, and every one was delighted with the reading entitled "The Irish Philosopher," by Spencer Lamb.

SCRAMBLE FOR GRANT'S PLACE

Gen. Funston Believed to be Most Likely Successor.

KANSAN IN LINE FOR PROMOTION

War Department Gossip Mentions Several Other Possible Candidates for Coveted Honor—Anthony's Influence Being Used.

Cheyenne, Wyo., April 13.—A private dispatch said to have been sent by an official of the war department at Washington was received at Fort D. A. Russell, declaring that Frederick Funston, senior brigadier general, would succeed the late Maj. Gen. Frederick D. Grant.

It was said that Brig. Gen. Clarence R. Edwards, chief of the insular bureau, would succeed Funston as brigadier general of the line.

Wood to Recommend Him.

Washington, April 13.—From the war department it was learned that Brig. Gen. Frederick Funston probably will be appointed successor to the late Maj. Gen. Grant as commander of the department of the East. Gen. Funston is the ranking brigadier general, and it is said that Gen. Wood, chief of staff, will recommend him within a day or two to Secretary of War Stimson for the place. It is customary for the secretary of war to take the suggestion of the chief of staff to the president as made.

D. R. Anthony, representative from Kansas, is chairman of the house military affairs committee, and is bending every effort to have Funston moved up according to his ranking position. Anthony stands in an enviable position to have his recommendation favorably considered. Not only is Funston entitled to the place according to rank, but it must be remembered that Anthony was much disappointed in the refusal of the president to name Judge W. C. Hook to succeed the late Justice Harlan to the supreme bench. It is not considered probable that Taft will again refuse Anthony's request after having turned down Judge Hook.

Edwards Stands High.

At any rate the gossip of the war department is that Funston will get the place. He is now in command of the department of Luzon, which includes the Philippines.

Brig. Gen. Edwards, however, stands eighth in point of rank among the brigadier generals, of whom there are 27 on the active list. Brig. Gen. Crozier, Bliss, Hall, Mills, Sharpe and Allen rank him, in the order named, and if the successions were to be automatic Gen. Crozier would succeed Gen. Funston as the senior general.

Gen. Edwards is a close personal friend of President Taft.

CABINET TO LOSE HITCHCOCK?

Postmaster General to Resign and Enter Business—Said He Was Through With Politics.

Washington, April 13.—Postmaster General Hitchcock will resign, as a member of President Taft's cabinet before July 1. He will enter business in New York city. It is understood, he will receive a salary of \$25,000 a year.

Mr. Hitchcock announced recently that he was through with politics. His announcement was a notice served on those to whom he had made pledges, not fulfilled, that he was unable to fulfill them.

The postmaster general, owing to his course despite repeated efforts of his friends to persuade him to try further. It was when the breach between the postmaster general and the president's present political advisers was the widest, just a few weeks ago, that some of the former lieutenants of Mr. Hitchcock began to desert him.

Washington, April 13.—Postmaster General Hitchcock authorized a formal statement denying emphatically "that he had any intention of resigning as a member of President Taft's cabinet."

LIFE VERSUS DEATH BREAD

Physician Claims Much for Preparation That He Asserts Has Renewed His Life.

The physician had once been a dyspeptic, sour and morose; but his color was now ruddy and clear, his spirits light, and his health excellent. "Death bread," he said, "killed me low. Death bread kept me a dyspeptic for ten long, sad years. And life bread has made me my own buoyant, healthy, happy self again."

"What do I mean by death bread? I mean ordinary bread. Why do I call it death bread? Because it is alive with putrefactive germs—because, by more than one authority, the yeast cells in it are said to be identical with the diseased cells of pus—and, therefore, are a poison."

"Yeast, in fact, is as unhealthy as its sickly smell and musty, slimy consistency would lead you to believe. It is a mass of living germs—and along with these are mingled putrefactive germs. Yeast is a very harmful thing. It makes bread a very harmful thing. All bread made with yeast is death bread."

"Life bread—that's what I eat. I make it myself. I take wheat of the finest quality, unground, and I roast it over a hot fire in a thick iron saucepan. The grains, an inch deep in the pan, are stirred continually. They pop, like popcorn, and, when all have popped—it is a matter of about ten minutes—my life bread is done."

"Each grain of this life bread is a loaf, a miniature, delicious loaf, brown and crisp, that falls to powder on being bitten. Life bread must be kept in air-tight tins. It is the healthiest, the most nourishing, and the best-flavored bread in existence. But it must be confessed that the loaves are rather small."

Flying Powers of Birds.

The rate at which some birds can migrate under favorable conditions is extraordinary, and as one listens to their plaintive cries coming from the darkness overhead it is difficult to realize that in a few hours these same birds may be within the arctic circle and a little later may be even crossing the pole itself. . . . Less is known of the actual dates of the departure of the migratory birds in autumn than of those of their arrival earlier in the year, and this for obvious reasons. The way in which our most charming songsters silently skulk out of the country in the autumn is very different from that in which they make their triumphal entry in the spring when every wood and copse resounds with their melodies.—*Windsor Magazine.*

Home Health Club

By DR. DAVID H. REEDER,
LaPorte, Ind.

Whooping cough—This affliction, peculiar to children as a rule, is so called because of a peculiar "whoop" in the paroxysms of the second stage of the disease. It is contagious and usually occurs epidemically and is self-limited. One attack of it generally immunizes the subject from having it again. It has three distinct stages. If proper treatment does not conquer it in the first stage, the patient may show evidence of the disease in forty-eight hours, or it may not become palpable for eight weeks after exposure.

Whooping cough is a much more dangerous disease than is generally supposed and it is liable to serious complications under improper treatment that bring about other afflictions very distressing and at times ruinous to a child's general health, or the wreck of some special function. Its first stage is more catarrhal than otherwise, the onset being caused by

a common cold, and lasts from one to five weeks, many of the symptoms being those of hay fever and acute catarrh, such as sneezing, watery eyes, headaches, slight fevers, or chilliness, indisposition and frequent coughing.

Treatment should be applied in the first stage, and if carefully and sensibly given, will generally ward off the second stage. The patient should be warmly clothed, seasonably, and especially the feet, should be kept warm and dry. After a diluted acetic acid bath and a good rubbing with olive oil, or almond oil, put the child to bed and apply dry heat to the feet. Give a cup of hot ginger tea, with a half grain of cayenne pepper added. To relieve the paroxysms of coughing, give from the twelve tissue elements (obtained in a homeopathic drug store) Kali Mur in tablet form of about the sixth trituration, two to four tablets, according to the age of the patient, six times daily. Generally this will suffice to check the disease.

The second stage—if it has not been turned aside—is extremely distressing to the child and alarming to inexperienced attendants. More severe paroxysms are preceded by a peculiar sensation in the throat and chest. Air expelled from the lungs by several rapid and violent expirations, followed by a rush of air to the lungs, producing the peculiar "whoop" from which the disease takes its name. This is weakening, the veins of the neck enlarge; the heart throbs energetically; the eyeballs protrude; the face becomes purple; the forehead yields profuse perspiration, and it seems as if the child would suffocate. However, this lasts only about three minutes and suddenly disappears. This is followed by expectorations of mucus and sometimes by vomiting, and often by evacuations of bladder and bowels. This stage of the disease usually lasts about ten days, if it is successfully handled.

The same treatment as to the giving of Kali Mur, as in the first stage, is about all that can be done, though close care to do everything to keep the child comfortable should be given to shorten the duration of the disease; protection from draughts and dampness and the administration of plain, nutritious diet.

The third stage is only that of convalescence, but it is a critical period. The child wishes to be active, to overeat, and to seek exposure. All these should be strenuously prevented, not only to promote normal health rapidly, but to avoid complications that

are insistently seeking to attack the patient, in the weakened state that whooping cough superinduces.

With care and prompt attention in the first stage, whooping cough passes away with less danger than acute catarrh, and handled with this care and attention, is often quite simple and comparatively harmless. But, as before mentioned, it is an extremely dangerous disease and carries off more children in proportion to its prevalence than almost any other disorder. Often it is very stubborn and is something that should be especially guarded against and particularly cured for and fought against, upon its first appearance.

Paste This in the School Books.

Every child that goes to school—or anywhere else—should cut out these rules and paste them in every school book. Parents who would save their children's health will see that they do it.

Take a clean handkerchief every morning and use it if needed.

Never pick your nose and rub it on your sleeve or hand. Use your handkerchief.

Never turn the leaves of a book with wet fingers. You can learn a better way. Your teacher or parents will show you.

To wet pencils with your tongue or lips is dangerous to you and hardens the pencil. If the pencil is not soft enough, get another.

To put money in your mouth is awful, especially small money such as children are liable to have. You cannot know whose dirty mouth or hands it has been in. It probably has germs of disease on it, so small that they can only be seen with the strongest microscope.

To put pins in your mouth is dangerous in many ways. Nothing should go in your mouth except food, and drink, and your toothbrush.

You risk your life when you swap chewing gum, candy, whistles, blowers, etc., or bite an apple that has been bitten by another. Be entirely exclusive about such things. It is far nicer as well as safer.

Wash or peel any whole fruit that you are to eat—except at the table. There your mother has seen to that.

It is very, very bad to cough or sneeze in another's face. Turn your face aside and hold your handkerchief to your mouth and nose.

Wash your face and hands before each meal and keep your finger nails clean.

Do not kiss anyone on the mouth or allow it from others.

When you have cut or bruised yourself, tell your parents or teacher.

Be always as cleanly as possible about your person, everywhere you are, at home, school, or abroad.

These rules will help to make the girls sweet, lovable and wholesome and the boys strong, vigorous and manly. The observance of these rules will be good for you and your companions.

These rules are written by one who wishes you well and who knows.

All readers of this publication are at liberty to write for information pertaining to the subject of health at any time. Address all communications to the Home Health Club, La Porte, Ind., U. S. A., with name and address in full and at least four cents in postage.

FREEDOM LASTED TWO YEARS

CANADIAN EX-BANKER ARRESTED IN CHICAGO.

William B. Nesbitt Said to Have Made \$250,000 From Ruin of Toronto Bank.

Chicago, April 13.—William Beattie Nesbitt, known in Chicago as George Coleman, was formally rearrested here after being taken in custody late at night charged with the wrecking of the Farmers' bank of Toronto, Canada, from the ruin of which he is said to have made \$250,000. Nesbitt is a former member of the Canadian parliament and was highly respected during a long career in the Canadian capital. Complaint charging him with being a fugitive from justice, was made before the United States commissioner by the British consul, Horace Nugent.

Nesbitt has undergone a remarkable change in his personal appearance in two years that he has been a fugitive. He has a long flowing beard, whereas in Toronto he was smooth shaven. His physical appearance has changed greatly.

The police conducted a search of "Coleman's" luxurious apartments in an effort to find some trace of the \$250,000. They believe he has more than \$100,000 in cash hidden somewhere in this country.

The prisoner insists his name is Coleman and that he knows nothing of the wrecked bank or the alleged theft of a fortune. He posed among a circle of acquaintances here as a retired financier.

U. S. CONSUL SNEERED AT

RESENTS UNDUE INTERFERENCE

Orozco Says Marion Letcher Does Not Represent a Nation—Seized Official Correspondence Addressed to State Department.

Chihuahua, Mex., April 13.—The United States consul, Marion Letcher, stationed here, is not the representative of a nation, as far as Gen. Pasqual Orozco, commander in chief of the rebel army, is concerned. Orozco made this statement in an interview and declared that inasmuch as the United States government does not recognize the belligerency of the rebels, the latter cannot recognize him in his official capacity. And, anyway, he adds, he does not like the tone and language of certain communications from Letcher.

"Mr. Letcher is merely an American citizen and entitled only to the consideration we grant every foreigner," he said.

A series of incidents led to the climax. Since the revolution began the consul has been compelled, in the absence of other authority in Chihuahua, to take up various matters with Orozco. The latter fretted under the fact that the consul did not address him as a regularly constituted authority.

Seized Consul's Mail.

Less than a week ago a rebel band went through the Mexican Central train bound from Chihuahua to Juarez and seized letters and documents carried by passengers. Among the mail was Consul Letcher's official correspondence addressed to the state department at Washington.

Letcher protested to Orozco. There were several exchanges, until finally the liberal leader informed the consul that the letters had been seized because either they were stamped with American stamps, or not stamped at all. Orozco declared that the fact that the letters were not entrusted to the mails as conducted by the rebels was an insult to them, not to mention the fact that by using messengers instead of the mails the rebel government is deprived of legitimate revenue.

His letter to Letcher indicates his resentment against what he considers undue interference by Americans, including the consuls, in the affairs of the rebellion.

COLLEGE TEACHES ETIQUETTE

KANSAS "AGGIES" LEARNING TO CARVE AND SERVE.

Young Men at Manhattan Are Taught to be Graceful Hosts—Novel Course is Popular.

Manhattan, Kan., April 13.—A table etiquette course for men has found a permanent place in the curriculum of the Kansas agricultural college. Tried out as an experiment it has proved one of the most popular and helpful courses in the whole school. One hundred young men, seniors are learning to be graceful hosts; to carve and serve dainty meals without getting stage fright.

As a departure from the staid teachings of colleges, the etiquette course in Kansas attracted much attention last year. It wasn't generally known what the course proposed to do.

But visitors who saw the class in action were convinced that there were no frills about it. The meals were very daintily served, to be sure, and the service strictly correct, but the food was simple and wholesome and not beyond the means of any family.

Junior girls in the school of domestic science cook and serve the meals. Luncheons and dinners, formal and informal, make up the five noon meals every week. Four persons sit at each table. One—a woman instructor—always is hostess. The three young men take turns at playing host. They must carve and serve when necessary. The instructor teaches by example, whatever she does is right. Verbal instructions are given only when asked.

A little book, "Table Etiquette and Service," issued by the department of domestic science is the text used in the course.

EVIDENCE SHRUNK UNDER OATH

Topeka Preacher Who Told of "Forty" Joins Could Recall But One on Witness Stand.

Topeka, April 13.—Many of the things the Rev. Robert Norris had in mind when he told the state temperance union of 40 Topeka joints escaped him when he was invited to tell the federal grand jury of his liquor crusades. Norris recalled only one "joint" where he had bought liquor.

It is said Norris was confronted with a speech made last fall and by newspaper interviews in which he said 40 "joints" were operating wide open in Topeka and that he had visited and bought liquor in all of them.

With the assistance of evidence of direct sales, the federal officers usually succeed in convincing the joint-keeper that he should buy a stamp, but the Rev. Mr. Norris was unable to give this evidence when it came down to facts.

DAWSON MAY OUST DOEGE

Attorney General Orders Mayor to Drop Ten Patrolmen.

INSISTS ON LAW ENFORCEMENT

Now Has Sufficient Evidence to Warrant Drastic Measures in Leavenworth—Joins Running With Help of Police.

Leavenworth, Kan., April 13.—Attorney General John Dawson notified Mayor Albert Doege that he would expect him to oust at least ten of the patrolmen now employed by the city. As an alternative the supreme court will be applied to for warrants which will oust not only the policemen, but the mayor and Chief of Police J. T. Taylor as well.

"I have grown thoroughly tired of the manner in which the laws are not being enforced here," said the attorney general, "and I can assure you that something is to be done. If the mayor demurs to carrying out my instructions there's nothing for me to do but apply to the state supreme court, and if I do that something will happen."

Chief Talked Back.

Previously when Dawson requested of Chief Taylor that some of the police force members be "excused from further duty," he was told to "mind his own business, and the chief would mind his." At the time the Topeka official made no comment on the thrust, but now he is said to be in possession of sufficient evidence to warrant drastic measures in his crusade.

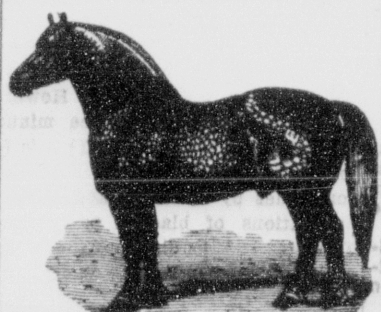

Dawson and his assistant, Judge Frank Lindsay, have been in Leavenworth for several weeks. In that time comparatively few alleged joints have been raided, but the officials are said to have secured some evidence which will be used opportunely. Mr. Dawson said that the present system of fining women would have to cease, as it is a direct violation of the law. For some time the police have been accustomed to arresting women and releasing them upon payment of from \$5 to \$25.

PERUNA SAVED MY LIFE.

"I Recommend It Wherever I Am."

Mrs. John M. Stabler, Millersburg, Ind., writes: "I have been cured of a very bad case of catarrh of the stomach and constipation, and a complication of ailments that I have had for several years. I doctored with three doctors, who did me not much good, so I quit doctoring. 'I bought a bottle of Peruna and commenced taking it. I found I was getting some better, but thought I was not doing as well as I might. So I wrote The Peruna Medical Department, to see what they thought about me. They gave me special directions and medical advice. To our astonishment I improved and am to-day a well woman and weigh as much as I ever did in my life. 'I tell my friends that Peruna saved my life. I recommend it wherever I am, and when any of our folks are sick, I give them Peruna with success.'"
